Dr. Lesan Azadi started the session tells the importance universal human value Human relationships are such an integral part of daily life, be it communicating with family and friends or in the educational or professional environment. It is what fulfills the need for social interaction in human beings. Universal human values play an important role in the life of humans at various stages including their homes, education and career. When a child enters school, their behavior depends on the culture and values imbibed in them, that is their family circle. In primary and secondary school life, there is a major influence of friends and teachers on their behavior that is their school circle. When they enter the college or professional course, the social circle plays an important role which has a dominant impact on humanity and moral capabilities. Thus the overall personality and values of an individual depends on all of these circles and factors. Dr. Azadi sir had conducted many activities with faculty and students to involve them into basics of human value.
